High performance
with a wide range of
solutions and options.

Product description

GLM-levo CleanCut is the solution for automatically weighing and labeling packaged products. Your benefits with the system designed for linerless labels: it provides sufficient space to fulfil your duty to inform and at the same time present your product in a visually attractive way. Even if your products are stacked in the retail shelf, consumers see at a glance which food they have in front of them. Produce less waste. CleanCut® Linerless labels work w/o liner. Fewer roll changes: Since linerless rolls have no liner they can hold 90 % more labels. This helps increase your production.

Ensure the best possible labeling result. Our intelligent weighing and labeling technology is matched to the properties of Bizerba CleanCut® Linerless labels. You benefit from a perfect interaction. Design a CleanCut® Linerless Solution according to your specific needs. GLM-levo CleanCut is available in different versions to match your products. Choose from a top, C-Wrap or CleanCut applicator. Common to all variants: The modular design which allows you to easily integrate the system in your production and to expand it as needed.

GLM-levo CleanCut with safety cover acrylic glass

GLM-levo CleanCut with safety cover metal mesh

Highlights

- Strong performance
 - High productivity with up to 120 ppm
